Firefighters this week were continuing to make progress on the S-503 wildfires burning on the reservation. Early in the week Fire Management reported the containment to 95 percent. The S-503 blaze was at 67,697 acres. Firefighters and engine crews were working on containing the spots, and advancing in the interior of the fire’s containment lines. S-503 was the largest a dozen fires that broke out in late June on the reservation, the other two happening near the Warm Springs National Fish Hatchery, and the other off Tenino Road.

Some of the display items of Into the Fray at the museum.

Firefighting resources remain prepared to respond to new starts on the reservation and surrounding areas.

June 5 marked the One-Hundred and Sixtieth Anniversary of the signing of the Treaty of 1855. For safety reasons the tribes again had to cancel the Pu’um-Sha Treaty Days Powwow. On the treaty anniversary day this year, Tribal Council and staff, along with Housing held a giveaway with members arriving at the administration building in vehicles and receiving the gift bags. Here at right, Helping out are among others Tammy Calhoun, Utilities, Norma Health, Council staff, Jay Handi and Housing staff making the day a success.

There is the great hope the Treaty powwow celebration returns next June.

The Confederated Tribes of Warm Springs maintain its sovereign immunity when it comes to lawsuits filed pursuant to the federal Clean Water Act. This was the ruling in June of the Ninth Circuit Court of Appeals. The Deschutes River Alliance in 2018 filed a lawsuit against the Confederated Tribes and Portland General Electric. The suit alleged that the operation of the selective water intake tower at the Pem-Owen Butte Hydro site was violating provisions of the Clean Water Act. A lower court had ruled in favor of the tribes and PGE, finding the Clean Water Act has provisions that are flexible enough to accommodate the operation of the intake tower. The Deschutes River Alliance then appealed this decision.

In its ruling the Ninth Circuit Court did not address the issue of the flexibility of the Clean Water Act provisions found, the appeals court found that the Clean Water Act did not abrogate or limit the tribes sovereign immunity of the Confederated Tribes.

The tribes are a necessary party to the lawsuit, as a co-owner and operator of the dam. Sovereign immunity applies to the case, so the matter is dismissed, the Ninth Circuit Court found that the Confederated Tribes.

New fund helping the tribes

The Karnopp Peterson law firm has launched a new fund in support of the Confederated Tribes of Warm Springs. Since 1935, generations of Karnopp Peterson lawyers have provided legal services to the Confederated Tribes, aiding in defending and enhancing tribal sovereignty, treaty rights, and culture.

The fund, established under the Karnopp Peterson law firm’s pro bono program, will allow the tribe to acquire new legal counsel to better advocate for the Confederated Tribes of Warm Springs.”

Ms. Grover adds: “It has been an honor to maintain a relationship with the Oregon Community Foundation’s well-earned reputation in managing donor-advised funds, which will give our fund the endorsement for others who wish to give to the tribe.”

Ms. Grover said: “We are excited to provide the opportunity for others to support the Confederated Tribes of Warm Springs.”

Since both the fund will be managed by the Oregon Community Foundation and will match all donations up to $5,000, the aim is to create a donor-advised fund in support of the Confederated Tribes of Warm Springs.

Ms. Grover added: “We have developed a focused support of the Confederated Tribes of Warm Springs.”

Ms. Grover added: “We are excited to provide the opportunity for others to support the Confederated Tribes of Warm Springs.”

Joseph Stevens, 49:12, 27.1 miles (Camel Run).

The fire season is underway and this year promises to be a record-breaking one. This year, in the Face of the Fire, Extreme heat and drought are expected to continue, creating extremely dangerous fire conditions. The current fire season is expected to last longer than usual, with high fire danger indices expected throughout the summer months. The Confederated Tribes of Warm Springs is taking steps to prepare for this season, including increasing staffing levels and implementing new fire safety measures.

Record breaking heat wave, drought

Cooling shelter open

The record-setting heat wave can be dangerous for people who have no regular shelter. Addressing the heat and Human Services has opened a cooling shelter area in the Cache County Courthouse.

The areas are open at 4 p.m. They will be open from 10 a.m. until 10 p.m. on Monday through Thursday, and 9 a.m. until 9 p.m. on Friday through Sunday.

Fisheries

The heat is raising the temperature of surface water. Warmer water can hold more air at a higher heat and they are lasting longer.

Employment with tribes

The following are positions posted by the Confederated Tribes Personnel Department. We are seeking applicants for these positions. The closing date is June 30, 2021.

- Employment with tribes

New policy for Indian boarding schools

The United States enacted laws and implemented native, assimilation policies that established and maintained residential schools on the reservations across the country. The schools were designed to culturally assimilate Indigenous children by forcibly relocating them from their families and communities to distant residential facilities. The schools housed not only Native, but also Native Hawaiian iden-
tities, languages, and belief systems to be fully suppressed.

In light of announcement at ATNY, the Haaland plan to investigate the history of tribal healing are vital to the health and future of Native communities.

Employment in the Central Oregon region

In 2021, the seasonally adjusted unemployment rate was 6.3 percent in April, compared with 6.4 percent in March 2020, when it was 4.1 percent.

The unemployment rate remains above the national average of 4.2 percent.

According to the American Heart Association, a normal blood pressure reading is only down around 1.1 percent from covid, when it was 4.4 percent. Deschutes County (Bend-Ro-

redmond): The seasonally adjusted unemploy-ment rate was 6.3 percent in April.

Brookings-Crook County. The seasonally adjusted unemploy-ment rate was 5.3 percent in May, little changed from 5.4 percent in April.

The unemployment rate remains above the national average of 4.2 percent.

Blood pressure: What exactly is it? Holistic Health explains

Stress. Diet high in salt.

Obesity. Lack of exercise.

Smoking.

Alcohol consumption.

Lifestyle changes that can help to lower blood pressure:

150 minutes of moderate inten-
sity physical activity or 75 minutes of v-

High blood pressure can increase your risk of heart disease, kidney disease, or other health problems. It is also called hypertension.

Blood pressure readings are given as a number separated by a slash. The higher number is called the systolic blood pressure, which measures pressure in the arteries when your heart contracts and pushes blood throughout your body. The lower number is called the diastolic blood pressure, which measures pressure in the arteries when your heart relaxes and fills with blood.

Blood pressure is measured in millimeters of mercury (mm Hg) and can be classified as normal, high normal, prehypertension, stage 1 hypertension, or stage 2 hypertension.

Prehypertension: Blood pressure is between 120/80 mm Hg and 139/89 mm Hg.

Stage 1 hypertension: Blood pressure is between 140/90 mm Hg and 159/99 mm Hg.

Stage 2 hypertension: Blood pressure is 160/100 mm Hg or higher.

The risk of developing heart disease and stroke increases as blood pressure goes up. The higher your blood pressure, the greater the risk.

High blood pressure is often called the silent killer because it usually doesn’t cause any symptoms. But it can damage your blood vessels over time, leading to heart disease, stroke, and kidney problems.

Blood pressure can be lowered by making lifestyle changes and taking medicine.

Warm Springs Indian Health Service, Community Health and the Covid-19 Response Team updated the demographics of the tribal community. The following graphs show the Covid-19 incidence on the reservation, in various categories, down to the very last 19 deaths among the community as of that date: 25.
With the threat of wildfire during the summer months, air quality can become a health risk. Online you can check the current air quality of the Warm Springs community.

Air quality readings during fire season

Running through the HHS and the Confederated Tribes program are automatically entered in the lottery. If you received your vaccine from another health service, you can register to enter the lottery at takeyourshot.oregon.gov. Lottery winners will be announced in July.

More prizes in vaccine lottery

With the deadline nearing for the cutoff to get at least the first dose of a Covid-19 vaccine to be entered into Oregon’s $1 million lottery, Gov. Kate Brown announced four travel packages to be given away statewide, as well as more cash prizes. People who have been vaccinated through the HHS and the Confederated Tribes program are automatically entered in the lottery.
