Legal jurisdiction in criminal cases that arise on tribal lands is a confusing subject, at times even for the experts in the field. This is because a number of unique legal factors come into play when a crime happens on tribal land. Some of these factors include whether the defendant is an Indian or non-Indian, whether the crime is major or minor, whether or not there is a victim of the crime, and whether the victim is Indian or non-Indian, for instance. Some of the questions remain in dispute, as shown by a case—still making way through the court system—that happened in 2016 on the Warm Springs Reservation.

Special note: The conference features a number of experts in the field. The conference will also host a field trip to the Warm Springs Native American Health Clinic and Warm Springs School.

Many young people in the area behind in school, yet the vast majority of parents think their own child is performing at grade level. The disconnect is not new, but after the Covid-19 school closures, the stakes for children have in many ways never been greater.

Opportunities to catch up are available in some places, thanks to federal pandemic aid, but will likely dry up in the next few years. A 2022 Learning Heroes survey of 1,400 public school parents around the country showed 92 percent believed their children were performing at grade level. But in a federal survey, school officials said half of all U.S. students started this school year behind grade level in at least one subject.

Looking at the most recent overall Report Card for the Warm Springs Academy, for the 2021-2022 school year, English Language Arts, Mathematics and Science test results were all below the state average. Attendance was also lower than the state average.

Tony Cortazar works with families on attendance issues at the Academy. “Kids are coming in late every day—some kids consistently, and some here and then,” Mr. Cortazar said. “I understand weather and transportation issues can be a barrier especially this time of year, but this is a problem especially for some of our younger kids in k-through third grade.”

Cortazar adds, “They start off their day with reading. If they get here 10 or 15 minutes late, then they still need another 10 or 15 minutes to eat breakfast. By the time they get into the swing of things, they may have missed the whole lesson, and that puts them behind academically.”

Being late and leaving school early does impact learning with kids. Families who need help getting their students to school on time can reach out to Tony Cortazar for assistance. Just contact the school office.

Pat Courtenay Gold – 1939-2023

Pat Courtenay Gold, renowned Wasq’u basketmaker, passed away on February 1, 2023.

Ms. Courtenay Gold was born on January 22, 1939, and grew up in the Warm Springs Reservation. In her youth, she attended the Warm Springs Indian Community School, and became a professional mathematician and computer specialist.

Childhood visits with her mother, who displayed traditional Wasq’u artwork, inspired Pat to study and help revive the full-turn twining technique, unique to her tribal community.

The result was a resurgence of Wasq’u ‘sally bags,” turned root-dyed bags with a traditional function for harvesting and storing traditional food.

The baskets were important because they were vital com-

pleting a general form.
